ROTO-BRITE® L-618 TECHNICAL DATA SHEET

HIGHLY ALKALINE LIQUID BURNISHER AND CLEANER FOR FERROUS METALS

APPLICATION:

ROTO-BRITE® L-618 is a highly alkaline compound formulated to remove heavy oils and soil as well as light rust and scale. Recommended usage rate is 1/2 to 2 ounces per gallon of water, depending on the degree of soil removal desired.

CHARACTERISTICS:

- Can be used with ceramic and resin as well as steel media
- Low to medium foam level
- Completely biodegradable

PROPERTIES:

- Liquid, violet color, odorless
- Density 1.112 gm/cc; 9.28 pounds/gallon
- Reactivity: pH at 100% active = 13.58; 12.01 at 1% in distilled water
- Formulated without chromates, phosphates, or nitrites

FIRST AID:

Should contact occur, flush area with plenty of water. For eyes, flush with water and seek medical attention immediately.

CAUTION:

ROTO-BRITE® L-618 is a highly alkaline industrial grade product that can cause burns. Avoid contact with skin, eyes, or clothing.

The data presented are believed accurate. Roto-Finish Company, Inc. can guarantee only its product. User must verify suitability to his own application.
