ROTO-BRITE® XL-1291 TECHNICAL DATA SHEET

LIQUID CLEANING COMPOUND

APPLICATION:

ROTO-BRITE® XL-1291 is an alcohol based, highly alkaline, heavy duty cleaner designed to remove tenacious oils and greases as well as stubborn die releases. Recommended usage rate is 1 to 4 ounces per gallon of water depending upon the level of soil to be removed. It can be used as a flow-through compound or as a spray wash compound.

CHARACTERISTICS:

- Unaffected by water hardness
- Completely biodegradable
- Excellent cleaning in ceramic, plastic or steel media
- Low foam level

PROPERTIES:

- Clear liquid with slight alcohol odor
- Reactivity: pH of 1% solution = 11.2: pH of 100% solution = 13.1
- Specific gravity = 1.01: 8.38 lbs. /gal.

FIRST AID:

In case of contact, flush with plenty of water. For eyes, flush with water for at least 15 minutes and call a physician.

CAUTION:

Exercise care when handling this product. It is highly alkaline, hence contact with eyes and mouth should be avoided. Excessive contact with skin should also be avoided. Wash well after contact. **KEEP AWAY FROM OPEN FLAMES.**

The data presented are believed accurate. Roto-Finish Company, Inc. can guarantee only its product. User must verify suitability to his own application.
