

FULL SERVICE PRECISION JOB SHOP

- Vibratory Deburring
- High Energy & Harperized Finishing
- Tumble Blasting
- Aqueous Parts Cleaning
- Burnishing
- RADIUSING
- Shot Blasting & Peening
- Polishing / Tube Polishing
- Surface Refinement
- Cosmetic / Decorative Finishing
- Degreasing
- De-Rusting
- Accelerated Finishing
- Descaling
- De-Flashing
- OD Polishing

PROCESSED APPLICATIONS

- Stampings
- Die Castings
- Fasteners
- Forgings
- Machined Parts
- Screw Machine Parts
- Ball Valves
- Electrical Switches
- Handles
- Wheels
- Locks
- Firearms

RELINING & REBUILDING

- Used Equipment
- Services & Repairs

CRW Finishing Offers You:

- Custom Packaging
- Weight Counting
- Tolerance Testing
- Inspection & Testing
- Consulting
- Process Development
- PPAP & PFEMA
- ISO-9001 Certified
- Local Pick-Up Delivery
- Free Sample Processing
- Visa & Mastercard Accepted

Industries We Serve:

- Medical Implants & Devices
- Aviation & Aerospace
- Hand Tools
- Military
- Automotive
- Food & Beverage
- Healthcare & Pharmaceuticals
- Electronic Components
- Appliance
- Agriculture

Distributor for:

- Hammond Roto-Finish
- Walther Trowal
- Gibson Abrasive Equipment (Empire Abrasive Co.)
- Ringwood Environmental
- CETCO Oilfield Services
- Abrasive Finishing
- Oakland Products
- Washington Mills

Your Complete Finishing Solutions

MASS FINISHING EQUIPMENT

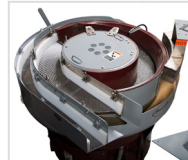

- Vibratory Deburring Equipment
- Aqueous Parts Cleaning Systems
- Blasting Equipment (Batch or Continuous)
- Grinding / Buffing / Polishing Equipment
- Drag Finishing Equipment
- Centrifugal Disk Finishing Equipment
- Wastewater Treatment Systems
- Used & Refurbished Equipment

Tub Burr Bench: An economical, portable deburring machine used for a wide variety of metal finishing applications.

Vibratory Bowl Gemini Series: For applications using plastic, ceramic and other non-metallic media.

Combo HR Series: Internal separating bowl for heavier duty processes, includes a higher degree of automation.

Polishing and Buffing Lathe: The most dependable polishing Lathe in the industry of this type.

K3000 Belt Grinding Machine: Abrasive belt & brush grinding equipment, heavy-duty, built-to-last product. Wide variety of configurations are available.

Air Blast Cabinet: Automate cleaning, peening and finishing of small workpieces. With certain types of parts, these machines deliver consistent finishing—automatically.

Tumble Blasters: Airless shot blasting complete with air wash systems.

THM Blasters: Allows processing both bulk material and complex, sensitive individual parts. Available in a range of configurations, adjusted to your needs and size of your workpiece.

Parts Washer: Standard and custom cleaning systems, including cabinet, drum, rotary basket, and ultrasonic cleaners.

Wastewater Treatment Systems: Optimizes the use of clay based flocculants to clarify industrial wastewaters.

MASS FINISHING SUPPLIES

MASS FINISHING CHEMISTRY

- Cleaning Compounds
- Rust Inhibitors
- Burnishing / Brightening Compounds
- Deburring Compounds
- Accelerated Chemistry
- Spray Wash Compounds
- Floor Cleaning Compounds

MASS FINISHING MEDIA

- Ceramic Media
- Plastic Media
- Steel Media
- Plastic Deflashing
- Blasting Media (Shot, Grit and cut wire / all types)
- Glass Bead
- Silicon Carbide
- Aluminum Oxide
- Corn Cob
- Walnut Shell
